

PLASTER

THE very best remedy that is known for all kinds of pain or weakness, such as rheumatism, gout, pain in the side, legs, breast, back and limbs, headache, nervous debility, &c., in every case of which it has proved an effective cure. There is nothing better for its soothing and healing qualities in cases of rheumatism, sprains, wounds, white swelling, hard tumors, stiff joints, ague in the breast, &c. It is also very beneficial in giving permanent relief in excruciating pain and imparting strength in all cases of weakness—weakness in the stomach, weak limbs, lameness, affection of the spine, female weakness, &c. No person subject to pain or weakness in the back or side should be without it; married ladies in delicate situations find great relief from constantly wearing this plaster. The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, pleurisy and lung affections in their primary stages. It destroys inflammation by producing copious perspiration. No physician should be without it. It is a sure cure for corns. Nearly all other Plasters are spread, thereby rendered almost useless, by leaving and getting dry before using. This plaster is put up in boxes containing sufficient to spread six or eight patients, price 50 cents a box.

A pamphlet containing certificates and a history of the above plaster, may be had by calling on any of the following agents:

DR. LIBBY'S VEGETABLE LIFE PILLS.

Area, affecting some of the most astonishing and wonderful cures that have ever been known in consequence of which they have become a shining mark against which all the armies of disappointed hope, envy and unbelief are leveled without distinction. The town and country are alike filled with their praise. The palace and the poor house alike echo with their virtues. In all climates, under all temperatures, they still retain their wonderful powers, and exert them unaltered by any or situation. They are simple in their preparation, mild in their action, thorough in their operation, and purified in their results.

Recommended by the Faculty—Libby's Pills.

Bring experience these Pills have been proved by thousands to be the best and most Family Medicine known, to be of more importance to the well-being and health of the human family than all that has heretofore been known, cannot be doubted by the most sceptical.

I shall now proceed to state in what my theory and important discovery consists, and I flatter myself that it shall be able to make it clear that the doctrine is true. Before, however, doing this I wish to explain the word, which I shall have frequent occasion to make use of. Secretion. By Secretion I mean that part of the animal economy which supplies the fluids of the body, as for example—the bile or gall is a fluid, and is a secretion of the Liver.

All diseases have their origin in a suppressed, imperfect, or depraved secretion of some organ.

SANDS' SARSAPARILLA.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD, OR HABIT OF THE SYSTEM, NAMELY:

Scrofula or King's Evil, Rheumatism, Obsolete Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Bites, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Scatula or Lumbago, and Diseases arising from an impure state of the blood. Also, Chronic Constitutional Disorders.

This preparation is a combination heretofore unknown in the history of medicine, differing entirely in its character and operations from the various preparations of Sarsaparilla which have been at different times offered to the public. It acts specifically upon the whole system, thereby bringing it under its direct and immediate influence. Although possessed of powerful and controlling effects, yet it is entirely harmless, so that it cannot injure the most delicate constitution. When in perfect health, no effect is produced by its use except an increase of appetite; but when disease is seated in the frame and hurrying fast its victims along the path of life, then its mysterious influence is felt and seen; it kindles new life and vigor, and brings health and strength back to the suffering and diseased.

Essex, Conn., July 25, 1843.

Messrs Sands—Gent: About eight years since, by being overheated and directly after exposed, I was seized with a severe cold, which deranged the whole system. Purple or livid spots appeared on the skin, attended with violent pain of the head; the symptoms being alarming, a physician was called who prescribed blistering and leeching, which produced partial relief. Hard, bony lumps formed under the skin on various parts of the body, and the doctor pronounced my complaint hereditary scrofula, now for the first time developed. The following winter my sight failed in both eyes; medical aid was again resorted to, which relieved my sight during the summer; my nose now began to increase in size and the whole body rapidly enlarged with a dropsical swelling. The nose even grew very sore and discharged profusely the most loathsome substance. My whole system was involved in disease; the lumps softened and discharged freely, producing great debility; ulcers now broke out on the legs, and to complete my misery, the muscles and sinews contracted so that I was rendered nearly helpless. I remained with little change in this condition until last October, when I was suddenly seized with an indescribable sensation, which rendered me nearly unconscious, and my friends supposed it was the will of kind Providence to rid me of my sufferings; but from this I recovered only to suffer on the next day, and became once more entirely raw.

It was in this condition I commenced the use of your invaluable Sarsaparilla, which I was induced to use from the many remarkable cures I saw published. It came to me as some guardian angel; and I can scarcely tell why, yet from the moment I heard it mentioned I was impressed fully with the belief that this was to be the Good Samaritan for me—and truly it has wrought wonders in my case. After using it for a few days my pains grew easier, the swelling of the body and limbs went down, the ulcers commenced healing, and I rested well. After suffering everything but the pains of death, how happy am I and how grateful do I feel, to be able to add another testimonial to the efficacy of your priceless Sarsaparilla.

My health is restored, and I have walked four miles without inconvenience. I superintend my family affairs, and in fact feel almost like being in a new world. I am induced to make this public acknowledgment from a deep sense of duty due to you as a means in the hands of God of restoring a fellow mortal from a premature grave. Language is inadequate to express my feelings. May the Lord be with you and make his face to shine upon you, is the desire of your most obliged and deeply indebted friend. To the afflicted I would say. Do not despair; for, however desperate your case may be, you surely have an antidote at hand—viz: SANDS' SARSAPARILLA. Trust to no other, however great their pretensions.

Counterfeits' Death Blow.

THE GENUINE HYGEAN VEGETABLE UNIVERSAL MEDICINE—Accurately prepared by Dr. H. S. Moat, of New York, from the original recipe used for many years by his late father, Mr. Thomas Moat, Vice President of the British College of Health.

Counterfeits' Death Blow.

Twenty years' successful administration of these celebrated medicines in Europe, and more than twelve years in the United States have established their high reputation. Thousands of both sexes, who have been restored to health, the numerous sufferers rescued from a premature death, and volumes of certified cases of cure, embracing every disease in the long catalogue of human misery; must convince the most incredulous, of their superiority and the truth of the Hygeian theory, resulting from scientific research and experience, namely, that man is subject to only one real disease, impurity of the blood.

The medicines being composed entirely of herbs or vegetable matter, purify the blood, and carry off the corrupt humors of the body in a manner so simple as to give every day ease and pleasure. Man will be born to this lot, weighed down as he has been by disease, infirmities, and sufferings which no earthly power knew how to alleviate, until this discovery was presented to the world. The weak, the feeble, the infirm, the nervous, the delicate, are in a few days strengthened by their operation, and the most obstinate complaints are removed by perseverance, without the expense of a physician. Adapted to all circumstances and situations, they are the best medicines ever invented for Families, or to take to sea, preventing scurvy and costiveness, requiring no change of diet, particular regimen, or care against taking cold.

The propriety of these medicines, has induced many speculators to attempt imposition on the public, by forging the labels, or forcing their imitations into notice through the medium of the Press. Some of them pretend to Hygeian principles, by stealing from the writings of the Hygeist, and copying whole pages into their fulsome advertisements. But as they cannot copy the medicine, their specifics or their deleterious nostrums prove to be unavailing, their puffing and piracy become evident; disappointment to the afflicted is eventual, and with just obloquy the pretenders sink into oblivion.

The Hygeian medicines, first introduced into this country by H. S. Moat, in 1830, have for the last four years been prepared by him, and the increasing sale attests their intrinsic merit; they comprise two sorts of Pills, No. 1 and No. 2, in single boxes of each at 25 or 50 cents; and Packets containing both sorts, at \$1, \$2, or \$3. The Vegetable Cleansing Powder, in large boxes, at 37 1/2 cents, with printed directions. Each packet has a fac-simile of the signature of H. Shepherd Moat, and to prevent counterfeits, are signed with a pen by the district agent and sub-agent on a label of yellow paper.

None are genuine unless they have these signatures, and are obtained from sub-agents who can produce their written appointments from the district agent, and whose names are advertised in their respective districts.

Principal office, 50 Canal St. N. Y. The above medicine can be had of E. W. CLAPP, District Agent, East Jackson, Washington Co. N. Y., or of the following Sub-Agents: Wallingford, Henry H. Leonard, Rutland, W. E. C. Stoddard, West Rutland, Hitchcock & Morgan, Pawlet, Harrington Landon & Co.; Tinsmouth, Noah W. Sawyer. 30-17

The Resurrection or Persian Pills.

BEING composed of the Persian and Indian vegetable extracts, are therefore purely vegetable, and for eradicating disease in all its varied forms, they stand unrivalled. In these operations they effectually remove the very roots of disease—dyspepsia, diarrhoea, dysentery, and all diseases arising from an impure state of the blood, or disordered system. They are not unpleasant in their effects, and at the same time restore and invigorate the system. They quicken the circulation, purify the blood, remove all diseased action, give a tone to the nerves, exhilarate the spirits, and give health and strength to the whole person. No family should be without the Persian Pills, for it might save them from the sick bed of a long and lingering disease of suffering; also a heavy bill of expense. The preventative is easily obtained and the expense small. They are the cheapest as well as the best pills in use—large box, 73 pills, for 50 cents—small box, 35 pills, for 25 cents. A pamphlet containing certificates and a history of the above Pills, may be had free, by calling on any of the agents.

Consumption & Liver Complaint.

DR. TAYLOR'S BALM OF LIVERWORT, From 375 Bowery, New York.

FOR the cure of coughs, colds, catarrh, asthma, soreness of the chest, pain in the side and breast, raising of blood, Liver Complaints, Bronchitis, and all those affections of the throat and Lungs, which are a source of so much suffering, and, unattended, so often terminate in Consumption—this remedy is highly and justly distinguished. It is purely vegetable, mild and gentle in its effects upon the system, and can be taken in the most delicate cases, with safety as well as utility. Physicians, aware of its medical properties, and witnessing its effects even in extreme, and in some instances, apparently almost hopeless cases, often prescribe it in their practice, both as a palliative and a remedy, and with the medical Faculty generally, it has met with great approbation.

For a common Cold and cough, this is one of the very best remedies ever discovered.

N. B. There is a spurious and counterfeit article abroad, and lately introduced into the country; therefore be careful to get the genuine, which is from 375 Bowery, N. Y., and is for sale at the Rutland Bookstore by W. E. C. Stoddard; E. Jamieson, Castleton; A. Allen, Fairhaven; Noyes & Harris, East Poultney; Dock, E. Vail, Middlebury; Sam'l Townsend, Jr., Wallingford; Hitchcock & Morgan, Clarendon Spa; F. L. Wing, Rut.; Strong & Buck, Pittsford, agents for the above. 25-17

Middletown, Conn., June 25, 1843.

Dr. Boardman—Sir,—In answer to your inquiries respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May 1836; from that time I continued to grow worse, when in the Fall of '39, I abandoned business, and have not done any thing since. I supposed, from all I could learn about my case, frequently raising blood, coughing very hard, and expectorating profusely; deriving no benefit from many Physicians, and all medicines recommended to me—that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lacc in such cases, and was anxious that I should try it; accordingly I procured one from you and since I began to wear it my breathing, which was very short and laborious, became easy and natural; the pain and fluttering or palpitation of the heart has subsided, cough and expectoration greatly lessened; my limbs, which were exceedingly painful, have become useful, so that I can walk comfortably. I am able to shave myself with comfort, which for many years I have not been able to do.—The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride four miles at once with pleasure and benefit. Yours, &c. WM. RANNEY.

Dr. G. H. Boardman.

Sir,—I have been much afflicted for many years, with headache, pain in the breast, side, back and limbs, attended with loss of appetite, dizziness, languor, drowsiness and a general debility of the whole system; for which I have tried all the usual remedies, both externally and internally, without obtaining any permanent relief. I was induced to try Dr. Banning's Patent Lacc, and the benefit derived from it, surpasses all my expectations. I have not been so free from pain, nor enjoyed so good health, at this season of the year, for the last 20 years, and I attribute it entirely to the use of the Lacc.

Wm. Woodward.

Middletown, Conn., June 25, 1843.

Dr. Boardman—Dear Sir: In answer to your enquiries respecting the effect of Dr. Banning's Lacc in the case of my wife, I will state that for twenty years past she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, protrusion of the womb, &c., were relieved after wearing the Lacc two hours, and she has continued to improve daily. With this view of the case, I cannot use language strong enough to convey my approval of the instrument.

STEPHEN BROOKS, Jr.

This may certify that a short time since I called on Dr. Hibbard, of Rutland, for advice in relation to myself. I had not walked for five months without assistance, and not then, without extreme pain in my back, hips and loins, owing to prolapsus, and a general falling down of the abdominal viscera, palpitation, nervous weakness, costiveness, a continual hollowing at the pit of the stomach, finally, continual derangement of the whole system. Dr. Hibbard applied one of "Dr. Banning's Patent Lacc," and in less than one hour I could walk naturally, without any support but my own body, and almost entirely relieved from those distressing symptoms which have been growing more aggravated ever since last December. All the medicine I have taken has done me little or no good, because the right application was not applied, till I applied to Dr. Hibbard, and I feel certain that from present indications I am in a fair way to recover.

Mrs. Eunice Todd.

Hampton, N. Y., Sept. 6, 1843.

DR. HIBBARD, having purchased from Dr. Banning the exclusive right to vend the "Patent Lacc," in this vicinity, will keep on hand an assortment sufficient for those who may call for the same. The subscriber has, in his extensive chronic practice in Vermont, for the last seven years, seen the absolute want of this mechanical application, with the "Reformed Practice" to meet the wants of the many distressing cases for which the Lacc is applicable; and in candor and truth feels as though too much praise and gratitude could not be bestowed on Dr. Banning for his continual labors, for a number of years, to invent this instrument on such accurate physiological principles, so applicable, and affording so immediate relief to those cases for which it is designed. The undersigned has made a number of applications, and in no instance has it failed to benefit the action, although it is but a few days since he applied the first. He feels confident that many of the chronic cases which he could not entirely cure, was for the want of this mechanical application, to keep the viscera of the body in proper relative position, that the patient, by exercise and proper medicines, might be restored.

Dr. Hibbard, would tender his acknowledgments to his friends, for the liberal patronage he has received for the year past, and he will always endeavor to make all improvements, and adopt all real improvements, for those who may rely on him for relief of the various diseases of the human system. The subscriber (till further notice be given) will be ready to attend to calls from a distance, on Mondays, Tuesdays and Wednesdays, and all days of the week to attend to practice in the vicinity, both by night and day.

SHEPHERD'S

Children's Lozenges.

FOR SHEPHERD'S LOZENGES, see what the Parents of the children, and possess all the properties requisite for curing them when sick. Dr. Stoddard is an experienced Physician and a Member of the Medical Society of the City of New York, and has attended a large and successful practice in the treatment of children in this place for many years. Five years experience, and the consumption of one hundred and twenty-five tons of his Lozenges, has placed him in a position to state that his Lozenges have cured almost all the diseases of children.

WORMS CAUSE DEATH.

And many suffer for months and years, from the without suspecting the cause. They may be known by the child breath, picking at the nose, gnawing of the mouth, grinding about the tips and flushed cheeks, starting in the middle of the night, pain in the stomach, belly, loins and joints, bowels of hard chills, drowsiness, headache, loss of taste in the mouth, dry cough, low spirits, &c. The Lozenges of cases these Lozenges have cured almost all the diseases of children.

MY HEAD WILL SPLIT.

It often said by those who are subject to a headache, that the cause is a cold in the head, or a cold in the sinuses, or a cold in the throat, or
